A FORMER TONOPAH YOUNG LADY WEDS

The San Anselmo home of Judge J. P. O'Brien was the scene of a quiet wedding last Wednesday when Miss Nita O'Brien became the bride of Stanley S. Taylor of Honolulu. The couple left the same day for Honolulu, where they will reside. Mr. Taylor will superintend the establishment of the Pacific Coast Paper company of rice in that city.—S. F. Call.

WHEELBARROW KIDS TRUNDLING ONWARD

William Parker and John Cuddy reached Thorne at 2 p. m. yesterday, according to word received at the depot today. There will be no more word received until they succeed in reaching Schurz, which is 30 miles from Thorne. It is their intention to reach Rio Vista by tomorrow evening. Instead of taking the Reno route, they will go by Lake Tahoe and thence to Sacramento, making a short cut of more than 100 miles.

ANNUAL REPORT BY WEST END COMPANY

Data Given in Detail Shows How This Corporation Conducted Its Various Operations

The eighth annual report of the West End Consolidated Mining company of Tonopah, Nev., for the fiscal year ending December 31, 1914, has just been issued and mailed to shareholders. The report tells first of the election of officers and then gives data in detail, first of the improvements that were made at the mine and mill during the fiscal year. The total for both was \$23,914.31. The development work during the year consisted of 2782 feet of drifts, 5129 feet of raises, 1835 feet of crosscuts and 419 feet of winzes. Other development work was done in the way of assessment on unpatented claims. The enlargement and the retimbering of the main working shaft was completed and the shaft sunk an additional 188 feet to a total depth of 1025 feet. Stations were cut on the 960 and 1000 foot levels.

During the year the company mined 160,412 wet tons, of which 56,357 were wet tons ore to mill; 2455 wet tons ore to dump and in bins, 31,322 wet tons waste to dump, 9,889 wet tons waste sorted from washer. The gross value of the ore mined was \$801,219.33, the average value being \$14.33 a ton, netting a profit to the company of \$4.11 a ton. The profits from all sources, including the handling of Halifax, North Star and Kernick ores in the mill amounted to \$259,925.41. A noticeable feature of this report is the low cost of treatment per ton together with the low value of the resulting tailings. A considerable proportion of the report is devoted to an extended

SUCCESSFUL TEST OF LEACHING PLANS MADE

Earl Christensen spent last Sunday at the Ruby Hill mine to witness a test clean-up of the leaching plant recently put in operation at that mine. The partial clean-up was simply to determine how the process was working out and Mr. Christensen states that the owners are more than satisfied with the results. The copper is deposited on scrap iron, the latter being dissolved. He was presented with a copper horseshoe which shows the deposit in its native state. It is some what purer than copper matte as it comes from a smelter and at the present time, copper as is being produced at the Ruby Hill is worth better than 20 cents a pound.

The company has spent a large sum of money installing a plant for treatment of ores from the Ruby Hill and the people hereabouts are pleased at the showing now being made.—Record-Courier.

VALLEY VIEW HOTEL PUTS ON BRIGHT FRONT

Bob Mayes, proprietor of the Valley View hotel, has had the front of his hostelry given a handsome coat of green in two shades. The work was very artistically done by W. T. Somerville. It was not only double-coated, but varnished, so that it will be dust proof. This, with the new concrete sidewalk and gutterway, gives the hotel a very pleasing appearance.

article by J. A. Carpenter, the mill superintendent, who goes into the treatment processes minutely. Owing to the fact that J. W. Chandler, the general superintendent, had been in charge of operations only the last three months of the fiscal year covered by this report and also had his time so fully occupied in directing litigation work as well as being an important witness in the company's litigation, it was impossible for him to make a report other than the facts and figures presented by his fellow officials. The report briefly reviews the progress of litigation as it had advanced up to the completion of the fiscal year. As addenda to the report there is a colored map showing the relative positions of the claims owned by the West End Consolidated Mining company and the other properties of Tonopah district, as well as a detailed tabular statement covering all the incomes and disbursements for the fiscal year as compared with the figure for the last nine months of the preceding fiscal year.

The assets of the company on December 31, 1914, were given as \$997,727.27, the largest three items being: Cash, \$109,157.71; investments in other corporations, \$461,111.72; buildings, hoists, machinery, etc., \$111,769.51. The liabilities of the company were \$77,484.83, leaving a surplus in cash and other assets of \$920,242.44. An expert accountant verified the cash balance and found all statements in strict accord with the accounting records of the West End Consolidated Mining company.

ACTION TAKEN AS TO STATE TEXT BOOKS

The new geography supplement, supplied to the Nevada schools by the text book commission and which was written by Charles Norcross, has been fully prepared and will set forth the mining, agricultural, stock and educational interests of the state fully and graphically, says the Carson News. It will set forth the whole subject relative to these industries, the population, etc., of Nevada better than ever before presented, and will be very instructive to the school children of the state. This supplement will be bound into the new geographies that are being printed, and those who already have books will be furnished with the pamphlet. The entire list of supplementary text and library books will be printed at the state printing of fee and sent to all the schools of the state. The contracts for all school books have been made out in the office of the superintendent of education and signed by the members of the text book commission.

SUMMONS TO DEPART COMES TO DAVE PRESS

DECEASED WAS A WELL KNOWN RESIDENT OF TONOPAH FOR MANY YEARS

The people of Tonopah will regret to learn of the death of Dave Press, a well known resident of southern Nevada, who for the past year and a half has been employed at the Butler theater in the capacity of musician. Mr. Press passed away last night about 9:30 at the Mine Operators' hospital following an operation for appendicitis five days ago. Mr. Press is survived by a widow, Mrs. Ruby Green Press of Tonopah, mother, father, three sisters and a brother in New York, and a brother in Los Angeles. Mr. Press was a native of Shertown, Iowa, having been born there in the year 1881. As a young man he drifted west and finally located in Nevada in 1905. Since that time he has lived in Tonopah and Goldfield following his profession. During the boom days of Goldfield he was in the employ of Jake Goodfriend, later coming to Tonopah where he accepted a position with Sam Haas. Since then he has been employed with various orchestras ending with Jules Smith at the Butler theater, where he had been a faithful employee for a year and a half.

Mr. Press was always known as a trustworthy and reliable man. He was an artist at the piano and was recognized as one of the best pianists in southern Nevada. As a teacher of music he gained an enviable reputation and many friends, who will regret to hear of his death.

The management and employees of the Butler express their great sorrow at the loss of their fellow worker and they extend their heartfelt sympathy to his widow and other surviving relatives.

The departed was a member of the

MONTANA TONOPAH GAINS STRENGTH

LEASES ARE ATTACKING AT MANY POINTS

ARIZONA COMMONWEALTH ORE BODY SHOWS VERY MATERIAL IMPROVEMENT

For the sharp advance in Montana-Tonopah today two reasons are ascribed. One is the excellent outlook for the leases in the local property. The first three sets are taking out excellent ore and eleven additional sets have their operations under way. The principal cause for the upward movement, however, is the report received from the Commonwealth property in Arizona, which is owned by the Montana-Tonopah. The ore lens above the seventh level, according to a wire received by Mr. Knox, is now opened for a width of ten feet and a length of fifty feet and is averaging \$44 to the ton. There are also indications of a heavy body of lower grade ore in the footwall.

WHAT FRANKIE MALONE THINKS OF TONOPAH

OAKLAND BOY TELLS A NEWSPAPER MAN THAT HE LIKES THE CAMP

Frankie Malone, the hardhitting little featherweight of Oakland, is back again after a hard battle with Roy Moore before the Tonopah Athletic club. Malone lost a very close shave decision to the hard hitting little lad from San Francisco, but so good a showing did Malone make that the Tonopah Athletic club has offered him all kinds of engagements, and they want him to box Jack Bratton in the near future, says the Oakland Enquirer.

Malone has nothing but words of praise for promoter Jack Minnick, and the Tonopah sporting men. "That fellow Minnick is a gentleman through and through. He's a good sportsman, and a good fellow. And there are any number of good fellows in Tonopah. I like the place immensely, and I'll always be a booster for that camp. They surely treated me right."

"They like to bet on fights in Tonopah, and say they bet them higher than a cat's back here. Why they held up the bout twenty minutes so that the Tonopah sporting men could get action for their money."

Malone says that he was to have boxed Jack Bratton instead of Moore at Tonopah, but he declares that the latter did not show for the engagement, and that this threw him out of training.

The local boys say that Roy Moore is now making Reno his home and that he is getting along very well indeed.

In Malone's bout with Moore, the latter was a slight favorite. The betting was in Moore's favor, the stipulation being that if Malone got as good as a draw that the Malone supporters were to take the money.

According to Malone, the Tonopah Athletic club is composed of twenty of the leading spirits of the camp. These twenty men guarantee the purse and defray all expenses of the boxing entertainment furnished the fans. Jack Minnick is the leading spirit of the committee of twenty. Malone says that they draw well at Tonopah and that the club is on a sound financial basis.

FOR AN ANGRY MAN WITNESS C. SOCKLIC

The angriest man in Tonopah this morning was George Socklic of the Bank saloon, whose pet aversion is the common, or domesticated, house fly. He constructed a labyrinth of a trap, which daily collected pounds of these pests, they coming from far and near to sample the delectable compound, which lured them into the enclosure from which there was no escape. Last night somebody, either as a joke or in need of a fly trap at home, himself, departed with the device, leaving behind him a trail of dead flies. Charley is camping on the aforesaid trail today. He threatens to stop his subscription if the feed in human form that stole his invention is not roasted in the paper today.

DUCKWATERITES RETURN

There was a considerable hogra in the direction of the Duckwater country this morning, nearly all the principals and witnesses in the water case returning. Mr. Tognoni and family will remain in Tonopah for several days longer.

Goldfield lodge, R. P. O. Elks, and the musicians' union. The funeral will be under the auspices of the local organization of Elks. The burial will take place from the Elks' hall at 4 o'clock Thursday afternoon. The funeral will be public.

MANY AUTO PARTIES TARRY IN TONOPAH

ALL REPORT GOOD ROADS AND PLEASANT EXPERIENCES ON THE WAY

Now is the time for auto parties. Many are going to the fairs that are being held in California and then again, there is a multitude that are returning to their homes in the east after a brief visit to the sunny lands of Nevada and California.

The latest arrivals from the coast are Mrs. Erickson and I. F. Schraven and wife of San Francisco and Los Angeles on their way to Salt Lake City, who came in last night. They left Los Angeles at 7 o'clock Sunday morning and made the distance without any serious mishap. They had a number of punctures and blowouts to record but no engine trouble.

Two Ford machines carried different parties from Fulton valley, Cal., 20 miles outside of the Angel City. The occupants of the cars were: Mr. and Mrs. B. S. Wilson, returning to their home at Delta, Utah, and Mrs. J. A. Sawyer, her two sons and two daughters, making their last stop at their home in Salt Lake City. Both parties started on Friday afternoon and reported the roads in good condition with the exception of a few rough places near the boundary line.

HAPPY JACK BARRIER MOURNS LOST APPENDIX

"Happy" Jack Barrier, a pioneer of Tonopah, who was recently operated upon by Doctors McKenzie and Cunningham of Reno at St. Mary's hospital, for appendicitis, will be discharged in a few days.

Jack Barrier, prior to his illness, had been prospecting at Lone with two men as his partners. Their claims are said to be of the best in the district. "Happy" and "Snowshoe Charlie" were partners for a great number of years. They have been in this country for about twelve years. Both men are very well known in Tonopah and the camps nearby. "Snowshoe Charlie" is at present leasing some claims at Sylvanite. Both men were from Colorado and have stuck together for six or seven years before they came to Nevada.

WM. POTTS DROPS DEAD AT BATTLE MOUNTAIN

HIGHLY RESPECTED PIONEER OF SMOKEY VALLEY DISTRICT EXPIRES AT RAILROAD DEPOT

William Potts, an early pioneer of Nevada and highly respected resident of Smoky valley, died suddenly Friday evening, says the Reno Journal. The deceased had shown no symptoms during the day of ill health and appeared to be in good spirits just prior to the sudden ending. He, in company with his two daughters and wife, had just arrived at Battle Mountain, Lander county, on Southern Pacific train No. 6 and while waiting for that train to pull out of the station, Potts placed his hand to his side and sank to the ground. Dr. Carl was immediately summoned but by the time the physician arrived life was extinct.

At 9 o'clock the same evening the body was conveyed to Austin on a special. William Potts was one of the sturdy pioneers of Nevada and had a wide circle of friends throughout the state who will mourn his sudden demise.

SUPERINTENDENT CULLINAN EXPECTS TO START SINKING NEXT MONDAY

At the Tonopah East End Superintendent Cullinan is keeping the water down with balers and at the same time his men are installing the water column, station and sinking pumps the two conduits, telephone and other appliances in addition to the recent completion of the new electric hoist.

The work of sinking will be begun about next Monday, when all the equipment is expected to be in readiness, shortly after which good reports are expected to come from this property. One of the phases of the installation is that everything may be operated from the hoist house and there will be no necessity for the miners climbing from the bottom to start or stop either the station or sinking pumps.

NOTICE TO ELKS

All Elks are requested to assemble at the Elks' lodge at 4 o'clock tomorrow afternoon for the purpose of attending the funeral of the late Brother Dave Press.

LOWELL DANIELS, Secretary.

PERSONAL

W. K. HILLIARD was a passenger this morning by auto for Manhattan. HARRY GRIER, general agent for the T. & T. railroad, went to Goldfield on No. 24.

MRS. J. R. MASTERSON, wife of Dr. Masterston, was a passenger on No. 23 for Yerington.

W. M. VEITH, associated with the Desert Produce company, arrived this morning from Goldfield.

MARTIN SCANLON was a passenger today on the Goldfield train on his way to Las Vegas.

J. M. FOX, mining engineer, associated with the Belmont, left this morning for Goldfield on a business trip. MRS. H. C. SCHMIDT and three children were passengers today for the coast, where they will spend the summer.

MASTER CEDRIC MACAULY returned to San Francisco today, where he will take up his studies this coming term.

J. E. SPURR, director in charge of work for the Tonopah Mining Company of Nevada, left on No. 23 today for Ogden, Utah.

MISS C. O'NEIL and Miss K. O'NEIL went to San Francisco this morning on their vacation. They will stay about one month.

MRS. KNIGHT has returned to Goldfield after visiting her husband, Bart Knight, formerly undersheriff of Esmeralda county.

E. E. BERTRAM of the Walker Transfer company departed on No. 23 for Reno, where he intends to purchase a new car.

CHARLES HUBER, deputy state inspector of mines, departed this morning for Mason valley district to inspect mining properties.

CLEVELAND BISHOP and wife left this morning for Battle. They will stop off for a few days at Salt Lake City and visit relatives.

BERT POLLARD, connected with the Tonopah Transfer and Trading company, left today for San Francisco where he will visit the exposition.

TOM DOBBS WILL BE TRIED BY A JURY

Tom Dobbs, who has been out on \$2000 bail charged with an attempt to kill Ollie Bell, a girl of the restricted district, on the evening of July 5th, will probably have a jury picked for him this afternoon in the district court. A venire of jurymen has been summoned and will appear at 2 o'clock this afternoon.

PARTY POSTPONED

The shirtwaist party that was to have been given tomorrow evening by the Elks has been postponed until the 29th because of conflicting social dates.

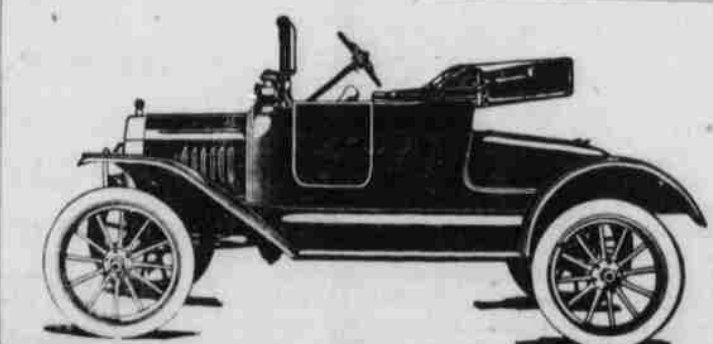

If you want the telegraph and local news—try the Bonanza.
